This matter is before the court upon Defendants' supplemental motion in limine (<u>filing 72</u>) and the parties' joint motion for expedited resolution of Defendants' supplemental motion in limine (<u>filing 80</u>). Having reviewed the matter, the court concludes that Defendants' supplemental motion in limine (<u>filing 72</u>) shall be denied. However, this ruling is without prejudice to consideration of specific objections to specific portions of the disputed evidence at trial.

## IT IS ORDERED:

- 1. The parties' joint motion for expedited resolution of Defendants' supplemental motion in limine (<u>filing 80</u>) is granted;
- 2. Defendants' supplemental motion in limine (<u>filing 72</u>) is denied.

March 23, 2009.
